Raymond Zhang

Los Angeles, CA | 858-201-0287 | raymond28zhang@gmail.com | linkedin.com/in/raymondzhang2

Education

University of Southern California — Los Angeles, CA
Bachelor of Science in Data Science and Economics — *Expected May 2027*

Experience

Roblox — San Mateo, CA
Product Management Intern — *May 2026 – Aug 2026*

- Owned the LLM copy layer for AI-generated game notifications, defining the strategy and 4-phase roadmap from proof of concept to production, lifting CTR +6% and 7-day playtime +15% in A/B tests
- Identified localization as the top growth lever through a coverage-gap analysis, projecting coverage growth from 33% to 88%; the resulting localized A/B test lifted CTR +2.5% and post-click playtime +6%
- Designed an LLM-as-judge evaluation framework with human-in-the-loop review, replacing manual content review and tracking precision and recall against human labels
- Defined trust and safety requirements for AI content, initiating the pre-launch safety review with Legal and Privacy
- Drove cross-functional alignment across Engineering, Design, Data Science, and 3 partner teams on data pipeline ownership, capacity, and quality standards, establishing an ownership model that unblocked launch
- Synthesized 143 DevForum requests to propose avatars for async notifications, building AI-assisted prototypes in Cursor of the consumer and creator experience to align stakeholders on user value

ApplyPass — Los Angeles, CA
Product Intern — *Oct 2025 – Jan 2026*

- Built Amplitude funnel dashboards across 580+ user sessions, revealing an 18% onboarding completion rate and the 3 largest drop-off steps (-12%, -8%, -8%) with hypotheses for each
- Identified resume upload as the key activation point and shipped an A/B test moving it earlier in onboarding
- Audited analytics instrumentation and identified missing payment events blocking upgrade-funnel measurement; conducted market research benchmarking onboarding user experience against competitors

Empyrean Technology — Chengdu, China
Software Engineering Intern — *Jun 2024 – Aug 2024*

- Interviewed engineers on documentation gaps and rebuilt the internal Python portal for circuit design tools
- Developed and unit-tested new features in C++ for circuit design automation software, improving workflows and usability

UC Davis — Davis, CA
Teaching Assistant — *Dec 2023 – Jun 2024*

- Led weekly lab sections of 40+ students, teaching programming and data science (R, SQL, Excel) to non-technical students
- Redesigned part of the curriculum using feedback from 50+ student surveys and implemented with the course coordinator

Leadership & Involvement

ProductSC — Los Angeles, CA
Vice President of Professional Development — *May 2026 – Present*

- Launched a PM recruiting cohort for 15+ members with mock interviews, resume reviews, case prep, and mentorship

Vice President of Client Services — *Jan 2026 – May 2026*

- Managed a team of 8 (PMs, engineers, designers) to deliver a real-time cashflow tool for Intuit

Vice President of External Affairs — *May 2025 – Dec 2025*

- Co-led and designed general member curriculum for 40+ members, increasing attendance by 400% from prior semesters
- Secured 10+ guest speakers and client partnerships from companies such as Amazon, Disney, Snapchat, and Riot Games

Projects

Spotify Highlights | *2nd Place in ProductSC Winter 2024 Case Competition* — Nov 2024 – Dec 2024

- Designed a new feature to boost podcast engagement through short-form video previews and social interactions
- Conducted 15+ user interviews and surveys to validate hypotheses, refine MVP scope, and structure feature roadmap

Skills

Product Strategy & Roadmapping, PRDs, A/B Testing, Experiment Design, User Research, LLM Evaluations, Generative AI, Funnel/Cohort Analysis, SQL, Python, R, C++, Spark, Cursor, Amplitude, Snowflake, Figma, Jira
